

This map displays the distribution of single-family building permits (one unit) across the Puget Sound region, overlaid on the Urban Growth Area (UGA) boundaries. The permits are represented by blue dots, while the UGA boundaries are shown as red lines. The map covers four counties: Snohomish, King, Kitsap, and Pierce. The density of permits is highest in the urban centers of King and Snohomish counties, particularly around the major metropolitan areas. The map also shows the surrounding water bodies and the regional coastline.

**Single Family Building Permit**  
 1 Unit (includes single family homes, mobile homes, and other housing)

**Urban Growth Area Boundary**
